

REACH Compliance

Compliance with the REACH Regulation (EC) No. 1907/2006

REO AG is committed to complying with the requirements of the European REACH Regulation (EC) No. 1907/2006 (Registration, Evaluation, Authorization, and Restriction of Chemicals).

As a manufacturer of electrical and electronic components, we place great emphasis on product safety, environmental compatibility, and compliance with all applicable legal requirements. Together with our suppliers, we continuously monitor the substances contained in our products and evaluate them in light of current REACH requirements.

Our measures include, in particular:

- Regular review of the current REACH Candidate List (SVHC).
- Assessing our products with regard to information and reporting obligations under Article 33 of the REACH Regulation.
- Obtaining and maintaining material and substance declarations from our suppliers.
- Continuously monitoring legislative changes and implementing necessary measures.
- Supporting our customers by providing relevant compliance information.

If our products contain substances of very high concern (SVHCs) in concentrations exceeding the legally established threshold of 0.1% by weight, we inform our customers in accordance with the requirements of Article 33 of the REACH Regulation.

We are happy to assist you with product-specific information or questions regarding material compliance.
